

Another Option for Older Cat® Machines

Trusted Machines. Trusted Parts.

We're committed to providing a full range of parts and service

options for your Caterpillar® machines

throughout their working

lives. That's why we're

offering Cat Classic Parts.

Available for many key components on selected

models, the Classic Parts line provides a low-

cost option for maintaining older Cat equipment.

Cat® Classic Undercarriage Parts

Another Repair Option for Older Cat Track-type Machines

In addition to original Caterpillar, Cat Reman, and quality used parts, you can now come to us for Cat Classic Parts.

Caterpillar® machines have long productive lives. So at some point, you are faced with weighing maintenance costs against factors such as application, utilization, the market value of your machine and how long you intend to keep it. That's why we're offering another option—Cat Classic Parts—to help you manage your undercarriage costs.

Classic Parts provide sensible solutions for undercarriage maintenance requirements with:

- Parts that meet Caterpillar dimensional requirements and demonstrate acceptable performance
- Competitive prices and availability
- Standard Caterpillar warranty
- One of many parts options offered by your Cat Dealer

When choosing undercarriage parts for your Cat machine, you have several things to consider: How old is the machine? How will it be used? How heavily will you rely on it? And how much is the machine worth to you?

Depending on your situation, Cat Classic Parts may be part of your solution. Avoid shopping around at multiple sources for used, aftermarket and the rest of the critical parts necessary for completing the repair. Come in and talk to us about your needs. We'll be glad to help you make an informed decision.

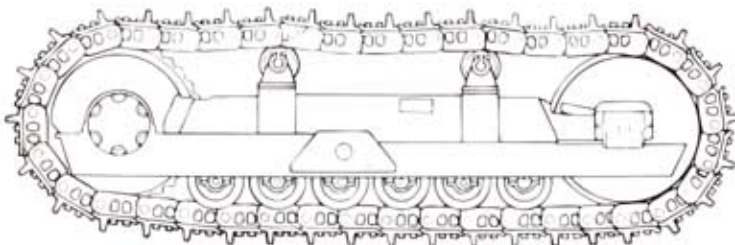

Because the undercarriage is a major part of your overall maintenance costs, Classic Parts for undercarriage are made to meet your needs.

Trusted Parts for Trusted Machines

Refer to the following chart for Classic Parts availability. Parts for additional models will be added periodically, so contact us for the most current information.

Undercarriage

Link Assemblies

- Heat-treated links provide high body strength and pin and bushing retention.
- Consistent wear surface is matched with track rollers for good wear life.
- Sealed and Lubricated Link Assemblies meet specific customer needs.
- Heat treated track pins and bushings provide good crack resistance in high impact applications.

Track Shoes

- Rigid, wear-resistant construction provides long life in rugged conditions.
- Hardened track shoes provide extended life.

Track Rollers, Carrier Rollers and Idlers

- Heat-treated shells and tread surfaces to a uniform depth offer wear life equal to that of the links.
- Carefully machined and heat treated shafts provide a smooth running, durable match with the shell and bearings.
- Finely polished metal ring seals maintain lubrication in tough applications.

Sprocket Segment Groups

- Heat treated to match wear life of bushing and to resist cracking.
- Forged sprocket segments simplify service requirements and are through-hardened for toughness and wear life.

Cat® Classic Parts

Another Repair Option for Older Cat Track-type Machines

In addition to original Caterpillar, Cat Reman, and quality used parts, you can now come to us for Cat Classic Parts.

Caterpillar® machines have long, productive lives. At some point, you are faced with weighing repair costs against factors such as application, utilization, the market value of your machine and how long you intend to keep it. That's why we're offering another option—Cat Classic Parts—to help you manage your repair costs.

Cat Classic Parts offer another repair alternative for those larger key components that drive the cost of the repair, with:

- Original Caterpillar dimensional and performance specifications
- One of many parts options offered by your Cat Dealer
- Competitive prices and availability
- Standard Caterpillar warranty

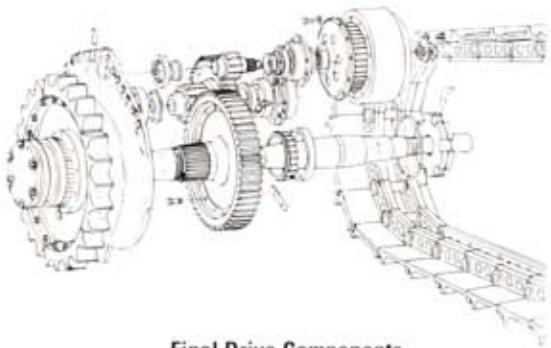

When choosing parts for your Cat machine, you have several things to consider: How old is the machine? How will it be used? How heavily will you rely on it? And how much is the machine worth to you?

Depending on your situation, Cat Classic Parts may be part of your solution. Avoid shopping around at multiple sources for used, aftermarket and the rest of the critical parts necessary for completing the repair. Come in and talk to us about your needs. We'll be glad to help you make an informed decision.

Value

We know you have to watch how much you spend on parts for an older machine. Maybe the application or utilization demands a more economical alternative. Or maybe its market value just doesn't merit an expensive repair. Either way, Classic Parts offer competitively priced solutions.

Confidence

Cat Classic Parts are manufactured to meet the unique requirements of your older machines. These lower cost, value priced repair alternatives provide acceptable service life and carry the Caterpillar new parts warranty. Combined with the superior service support of your Caterpillar dealer, you can feel confident Cat Classic Parts will meet your needs of performance and value.

Convenience

You'll never have to go looking for Cat Classic Parts. They're conveniently available from your local Cat Dealer, along with all your other repair parts options: new, used, Reman and exchange.

Total Dealer Support

Whenever you need parts for an older machine, we're your all-around best source. We can answer your questions, help you decide on the best option for your machine, and provide the expert service that comes from our experience with Cat equipment.
